Profile

I build products with React and Node.js and automate operations with Python. At **Anuubis Solutions** I work across a fleet of 1,004 WordPress sites on 8 servers; my projects cover payments, bank data imports and applied AI, backed by automated tests.

Experience

Full Stack Developer · Anuubis Solutions · Product and automation · Remote 2026 - present

- Build and maintain **React interfaces, Node.js APIs and Python/Bash automation** that reduce manual work in support, publishing and quality control.
- Turned a fleet data correction into a validated migration across **581 WordPress sites**: 581 changes, 0 failures and a full verification pass afterwards.
- Run deployments, migrations and incident response across **1,004 WordPress sites on 8 servers**, including Linux, Nginx, DNS, mail and certificates.

IT Support Technician · Work Placement · Impulso Sistemas, Coop. · Villena, Spain 2024

Resolved on-site and remote incidents; configured workstations and managed corporate accounts.

Featured projects

Strev · AI-assisted training platform · Private beta · [strev.app](#) · [Case study](#)

Implemented cookie authentication, payments, gamification and video analysis of exercise technique with Gemini on Vertex AI. React, Node.js and MongoDB; 837 tests.

SaveMyMoneyNow · Multi-format bank importer · [Source](#) · [Case study](#)

Designed the wizard and pipeline that detects columns, normalises statements from four banks and prevents duplicates before writing to MongoDB. React, Express and MongoDB; 113 tests.

Atalaya · Automated job search · [Source](#) · [Case study](#)

Created a Python CLI that aggregates eight sources, scores vacancies against a local profile and drafts cover letters with Claude CLI. 174 tests, strict mypy and an MIT licence.

Tech stack

- **Frontend and backend** · React, JavaScript, Node.js, Express, REST APIs, MongoDB and MySQL.
- **Automation and AI** · Python, Bash, Gemini/Vertex AI, Claude CLI/SDK and LLM integration.
- **Delivery and production** · Jest, Vitest, React Testing Library, pytest, mypy, ESLint, GitHub Actions, Git, Linux, Nginx and WP-CLI.

Education

Higher Vocational Diploma in Web Application Development (DAW) · IES Hermanos Amorós · Villena Completed May 2026

Vocational Diploma in IT Systems and Networks (SMR) · IES Hermanos Amorós · Villena Completed 2024

Languages

Spanish and Valencian · Native. **English** · Intermediate in reading, writing and conversation; regular use of technical documentation.
